In 2006, the online SMITH Magazine started the six-word memoir project. Readers were invited to submit their tiny stories and they answered in droves.

"Greasy Rider" is about a unique car, a "remarkable journey of discovery," and the importance of being "Green." The One Book, One College committee would like to extend the six-word memoir challenge to the college community: submit a six-word memoir around the theme of "rides," journeys, and sustainability.

Can you tell the story of your most memorable journey or your "green" viewpoint in six-words?

To give it a try go to: www.massasoit.mass.libguides.com, click on the six-word memoir tab and publish your own memoir.
