How do I add library content to my course?

1. **Go to your course (the course into which you want to add content)** and click the **Settings** link in the Course Menu on the left side of the screen.

2. **Click Import Course Content**
3. In the dialogue box that appears, do the following:

[1] Choose “Canvas Course” in Content Type
[2] Check the box “Include completed courses”
[3] Type Massasoit Library in the “Search for a course” option (our library canvas site will auto populate)
[4] Select “All content” or “Select specific content”

4. If you choose “Select Specific Content”, you will select the content after you click “Import.”

5. In the dialogue box that appears, make your selections and click “Select Content.”
All the content you selected will be copied into your course.
